Pay your bills

FPL Pay Online for multiple accounts is a simple, smart and convenient way to pay many accounts in one quick transaction.

- » Payments are processed within minutes of being made
- » Securely store your bank information and re-use it for future payments
- » Use multiple bank accounts in one transaction
- » Pay up to 2,000 accounts in one transaction

Manage your accounts

Group your accounts together to make it easier to manage all of your FPL accounts in one place.

- » View all your accounts at a glance
- » Name your group so you can easily recognize it
- » Sort accounts by company, location, or type of business
- » See the deposit and balance information of all accounts in one place
- » Edit the contact information of multiple accounts at once

Business Energy Manager

With your free, comprehensive Business Energy Manager, you can better track, learn and control your energy usage to save on your bill.

Understand your usage

Track your energy use by month, day and hour. You can also view your projected bill before your next reading and benchmark your business energy-use patterns against similar ones.

Analyze your usage

Dig deeper into your data with our analysis tools, identifying trends in your energy use and ways to lower costs.

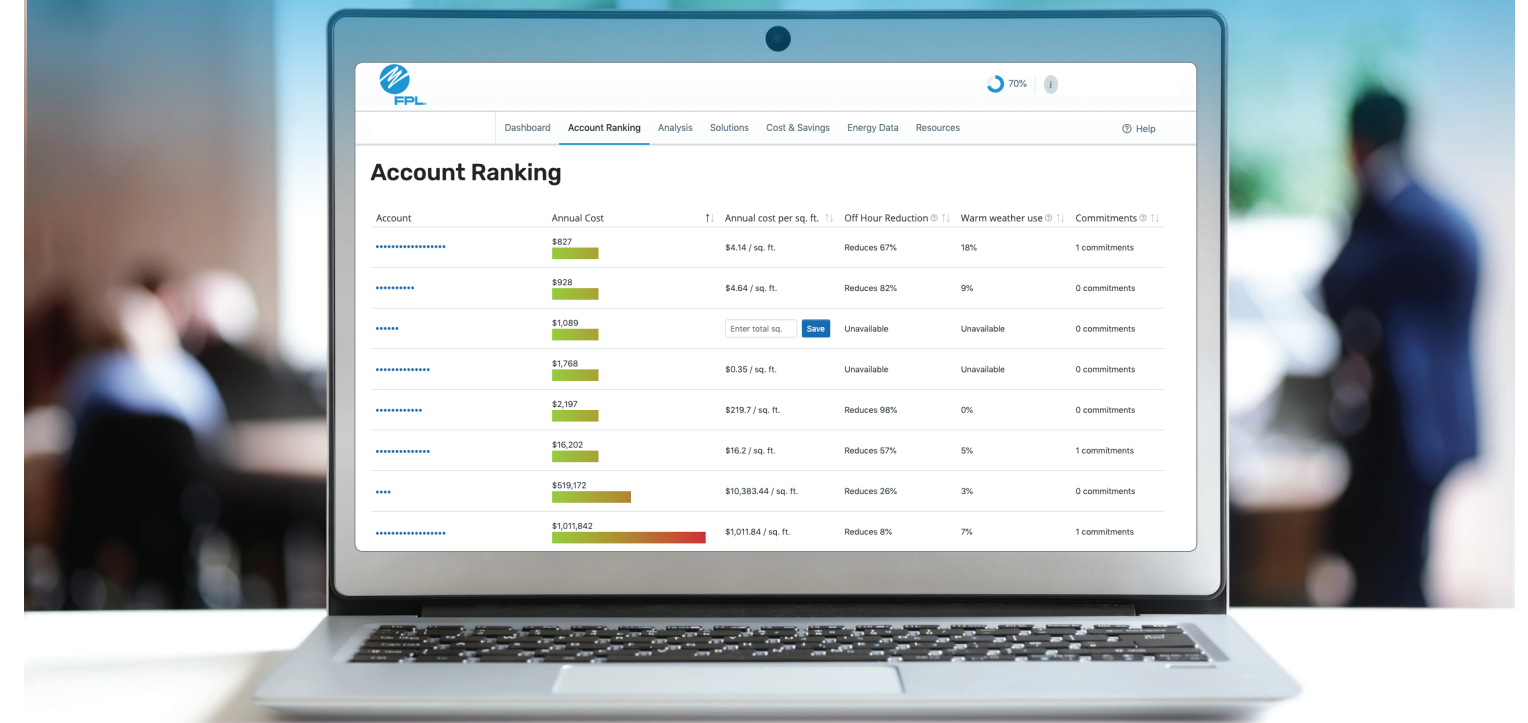

Customize results

Refresh your profile at any time to see how changes could make a difference to your bill, while receiving customized additional energy-saving recommendations specific to your business.

View all your business accounts

Use the Account Ranking tool to view and compare all of your business accounts conveniently.
