FOR YOUR BUSINESS

Investing in Florida's future

We're committed to providing electricity your business can count on at a great value now and in the future. Today, the service we provide is cleaner and more reliable than ever before. And, our typical business customer bill is lower than it was a decade ago and among the lowest in the nation. The value we provide you is the direct result of smart, long-term investments we've made in advanced technologies and cost-saving efficiencies.

To help us continue providing outstanding service for your business, we have requested that the Florida Public Service Commission begin the process to set new customer base rates for 2017 through 2020.

Investments supported by customer base rates will continue to improve the efficiency of our system, which helps us hold down fuel and other costs that contribute to your total bill. Additional investments in building a stronger, smarter electric system are crucial as we continue to improve the reliability of our service for your business, including fewer outages and restoring your service faster if outages occur.

Planting for the future

Planting trees is a great way to take care of the environment. However, planting them in the wrong place can lead to power flickers and outages.

Learn more on how your business can help keep the power lines clear for safe, reliable power at:

* Monday-Friday

Time-of-use peak hours change in April

If your business is on the time-of-use rate, don't forget on-peak hours have shifted. From April 1 to Oct. 31, on-peak hours are Monday through Friday from noon to 9 p.m., excluding Memorial Day, Independence Day and Labor Day.

To learn more about time-of-use or other rates, call our Business Customer Care Center at 800-375-2434, or visit:
